

Turf Herbicide
for Grassy & Broadleaf Weeds

Powerful control of both broadleaf and grassy weeds

WHAT IT IS

With four powerful active ingredients, **Q4® Plus Turf Herbicide for Grassy & Broadleaf Weeds** offers a single product option to control grassy weeds like crabgrass and yellow nutsedge, as well as tough broadleaf weeds like clover and chickweed. Q4 Plus is highly selective on cool-season and listed warm-season turfgrasses. It offers rapid visual response and has a one-week reseeding interval for most listed turf.

WHAT IT DOES

Q4 Plus controls:

- Yellow Nutsedge
- Crabgrass
- Foxtail
- Chickweed
- Clover
- Dandelion
- Many more listed grassy and broadleaf weeds

Ideal for use on:

- Residential sites
- Golf courses (fairways and roughs)
- Commercial areas
- Recreation areas
- Roadsides
- Cemeteries
- Sod farms

Labeled for use on:

- Kentucky bluegrass
- Fescues
- Perennial ryegrass
- Annual ryegrass
- Bermudagrass
- Zoysiagrass
